A LITTLE PREVIEW BEFORE YOU BEGIN

Autumn to colour

A scene to look at, then bring to life with your colours. You choose a page; your child chooses the rest.

The real activity sheet is just after the guide. We will help you get started.

YOUR GUIDE TO A SHARED MOMENT

Let’s begin together.

Choosing the right pages

The sheet to use is page 3 of this PDF.

These are the PDF viewer’s page numbers, including the cover.

1

A little preparation

A few colouring pencils and a comfortable spot. One sheet can be plenty for today.

2

Your first words

“Shall we look together? What would you like to colour first?” Let your child choose a small detail or a big area.

3

A little helping hand

You can colour a corner alongside your child, or imagine what the characters are saying. Imaginary colours are welcome.

Autumn with Girafoufou

Colour the picture, then find the three leaves.
